

## April 2010 Newsletter

### Safety Expo 2010 March 10<sup>th</sup> and 11<sup>th</sup>

**Think Responsibly** was featured at The Safety Expo hosted by The City of Calgary and its corporate and community partners to promote safe environments for Calgary's youth. Students from Calgary Public, Catholic, private and charter schools were in attendance. The Think Responsibly sessions were well attended with over 1,100 Calgary students attending the sessions over the 2 days of this event.

The purpose of Safety Expo is to increase safety awareness and promote citizen safety. School children are the perfect audience for messages about safety. Safety Expo Honorary Chair, Alderman Diane Colley-Urquhart, explained what makes them ideal for this experience.

"They are excited to learn about safety and eager to share what they learn with their families, friends and school mates," she said.
